[www.ballast-water-treatment.com](http://www.ballast-water-treatment.com)

The contract includes all design and supervision and is being held by **HHIC PHIL** (Hanjin Heavy Industries Corporation Philippines).

The vessels will be **equipped with BWTS BIO-SEA2100 (2100m<sup>3</sup>/h)**.

The vessels will therefore be equipped with the latest environmental technologies, and the **BIO-SEA BWTS** representing therefore **one of the greenest goods transport means in the world**.

### **About BIO-SEA by BIO-UV**

**BIO-UV** has been cooperating closely with a great number of partners, including the CMA CGM Group, in order to provide modular, reliable, innovative and energy saving systems, efficient in all water qualities.

**BIO SEA** by **BIO UV**  
Ultraviolet Solutions

**A wide range of modular and skid BWT systems  
for your retrofit and new building projects  
compliant with IMO and USCG regulations**

**www.ballast-water-treatment.com**

The banner features two large images of ballast water treatment systems (BWTS) on the left and right. In the center, there are four certification logos: the Great Lakes Waterways Authority logo, the US Coast Guard logo, the ABS Design Assessed logo, and the Lloyd's Register and DNV-GL logos.

## BIO-SEA remporte un nouveau contrat avec la CMA CGM pour 3 BWTS

**BIO-SEA by BIO-UV** vient de remporter un **nouveau contrat pour fournir 3 systèmes** à bord d'un des plus grands porte-conteneurs (20600 EVP) de la **CMA CGM** pour des constructions neuves.

Le contrat qui inclut toute la conception et la supervision, est détenu par le chantier philippin **HHIC PHIL** (Hanjin Heavy Industries Corporation Philippines).

Les navires seront équipés des systèmes **BIO-SEA2100 (2100m<sup>3</sup>/h)**.
