

The ideal system to safely **disinfect** **your vehicle** with no harmful chemicals!

Rental vehicles, ambulances, emergency vehicles, truck and HGV cabs, buses, taxis, presentation vehicles (dealerships)...

- **Chemical free**
- Complies with **AFNOR NF T72-281** standard for disinfecting surfaces by air, bacteria and viruses
- **Eliminates at least 99.99% of microorganisms, bacteria and viruses (including SARS-COV-2 / Coronavirus)**
- More efficient for surface disinfection
- Suitable for all types of surfaces in vehicles **without side effects and without degradation**
- A surface disinfection concept that brings **confidence to your customers and staff**
- **Powered from the in car 12 Volt cigarette lighter**

How UV works

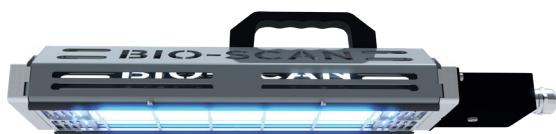

At a wavelength of 254 nanometres, UV-C inactivates micro-organisms (viruses, bacteria, algae, yeasts, moulds, etc.) by penetrating their DNA, thereby disrupting their metabolism until they are completely destroyed.

The benefits of BIO-SCAN®

- A certified process with proven effectiveness
- An ultra-fast processing time of **8 seconds!**
- **A practical, ergonomic and easy-to-use** concept for anyone
- **No chemicals**, no health or environmental risks
- Economic: competitive price, quick payback period
