

The water treatment specialist

# ozone triogen® O<sub>3</sub> M series

The **triogen® O<sub>3</sub> M series** ozone generators are utilised for **large volumes of water**. These self-contained units provide exceptional disinfection with effective treatment against chlorine resistant micro-organisms, oxidation of various organic matter and flocculation of colloidal particles, which significantly improves water quality.

## applications

- Commercial pools
- Hotel and club pool
- Aquariums and water parks
- Fountains and water features

## benefits +

- Safely lower free chlorine residual with effective disinfection including chlorine resistant micro-organisms
- Chloramine destruction reducing "red eye" and irritation of skin and respiratory system
- Significant improvement in water clarity and air quality
- Helps to inhibit the growth of algae
- Trihalomethane (THM) levels are minimised
- Simple to install and operate with minimal plant room space requirement
- Designed for maximum operator and bather safety

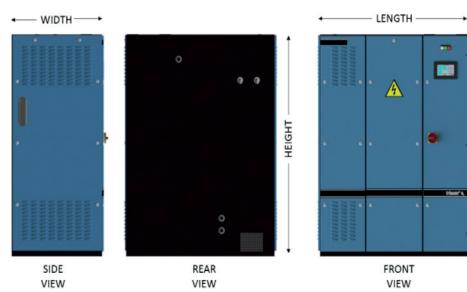

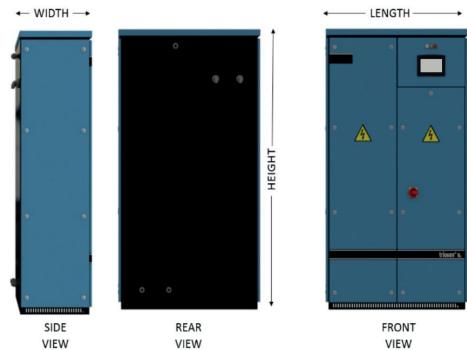

## technical features

- Ozone safely generated and injected under vacuum
- Unique 'Free tube' ozone module design
- Colour touch screen 7" HMI on control panel
- Self-contained system (single enclosure)
- Refrigerated air pre-dryer (M7 models only)
- Dew point Monitor (standard on M7 or optional on M6)
- triogen® O<sub>3</sub> M models can be supplied with constant ozone output or automatic regulation to suit the intended process.
- The system operates under vacuum conditions created by a water driven venturi ensuring maximum safety in operation.
- Internal partitioning with removable access doors for ease of maintenance
- Pool water can be used as cooling water
- CE certified, manufactured to ISO 9001 : 2015

## technical data

| Model                            | Ozone flow rate in g/hr | Air flow rate in m³/hr | Power consumption in kW | Dimensions in mm (L x H x W) |
|----------------------------------|-------------------------|------------------------|-------------------------|------------------------------|
| triongen® O <sub>3</sub> M6-15S  | 15                      | 0.7                    | 0.60                    | 1060 x 1880 x 530            |
| triongen® O <sub>3</sub> M6-25S  | 25                      | 1.3                    | 0.89                    | 1060 x 1880 x 530            |
| triongen® O <sub>3</sub> M6-50S  | 50                      | 2.7                    | 1.47                    | 1060 x 1880 x 530            |
| triongen® O <sub>3</sub> M6-100S | 100                     | 5.4                    | 2.85                    | 1060 x 1880 x 530            |
| triongen® O <sub>3</sub> M6-150S | 150                     | 8.1                    | 4.20                    | 1060 x 1880 x 1030           |

For requests outside of technical specifications, please contact us

## quality standards

- ISO 9001 : 2015
- CE approved

## controls and outputs

- Digital Inputs: Remote booster pump start-stop, remote ozone start-stop, ozone output
- Digital outputs: Booster pump fault, ozone ON
- Dew point meter (if dew point monitor is fitted)
- Air flow alarm switch
- Water flow switch
- Remote 4-20mA control

## contact

triongen® by BIO-UV Group  
[export@bio-uv.com](mailto:export@bio-uv.com)  
[www.bio-uv.com](http://www.bio-uv.com)

## materials

- Enclosures: mild steel, polyester coated
- Patented Ozone module: 316L stainless steel lined PVC outer body
- Air dryer: mild steel, epoxy coated

## options

- Standard ("S") constant output or Automatic ("A") constant
- Dew point monitoring system (standard on M7 models)
- Metric/Imperial connections provided
- All required ancillaries available for complete system specification
