

**BIO-SEA reinforces its partnership with Damen**

The **sole and unique French ballast water treatment specialist BIO-SEA by BIO-UV** is pleased to announce the reinforcement of its partnership with the great Dutch **Damen Shipyards Group**.

BIO-SEA is indeed one of the 3 great worldwide suppliers to be working with the Dutch group for their **worldwide One Stop BWT Retrofitting Service**. **BIO-SEA** has equipped many vessels, with **reliable, innovative, modular and cost efficient retrofit UV based systems**. The complete ballast water treatment system **BIO-SEA** combines mechanical filtration and UV disinfection, without any chemical treatment whatsoever.

The **BIO-SEA** range is manufactured with high marine quality components, and is **IMO type approved and USCG AMS accepted**. **BIO-SEA** products are built and designed by the **BIO-UV company**, the French ultraviolets water treatment specialist, with 15 years of experience.

BIO-UV, is an innovative industrial company created in May 2000 with a subsidiary in the USA (Delta UV in California). The **BIO-UV** Group designs, manufactures and markets systems and concepts of disinfection by ultraviolet light (UV-C) adapted to a large number of applications.

About Damen Shipyards Group

Damen Shipyards Group operates 40 ship- and repair yards, employing 8.000 people worldwide. Damen has delivered more than 5.000 vessels in more than 100 countries and delivers approx. 180 vessels annually to customers worldwide.
